X-SOLAR POLE LIGHTING TOWER

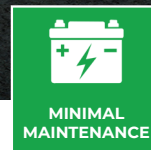

ZERO CO₂
EMISSIONS

YEAR-ROUND
RUN TIME

REDUCE
COSTS

MINIMAL
MAINTENANCE

Introducing the X-SOLAR POLE by TRIME, Europe's leading sustainable Lighting Tower manufacturer. Tailored for construction site entries, walkways and events, this innovative lighting solution is an excellent addition to rental fleets in Australia. Each unit is 100% solar powered, ensuring zero CO₂ emissions for sustainable and environmentally friendly operations. With a compact design, the X-SOLAR Pole can fit up to 20 units per truck, making transportation efficient and cost-effective. The unit has an all-year-round run time, easy to operate and has minimal maintenance.
